

Where to Buy a Binder!

➤ Physical Resources - Chest Binding

What Are Chest Binders?

A chest binder is a piece of clothing worn to compress breast tissue to give the chest a more masculine appearance. These garments are much safer than bandages for example, but should still be worn with care and caution. Chest binders may not be comfortable but they should not be painful either. Always read the health directions of each website and also the washing instructions for the binder.

- It is recommended to always check shipping totals for correct currency conversion and time frames from purchase through to expected delivery dates. Some products are custom made and may take longer than others to deliver.
- This is not an exhaustive list, nor a guarantee a product will be the right one for you and should be considered a guide only. At the time of writing, all were known to ship to South Australia.
